Spyglass MTG:

Delivering Data, AI & Security Services
On the Microsoft Clouds

Spyglass MTG: Microsoft Technology Group

For over 15 years, we've partnered with Microsoft to expertly deliver their vast and ever-evolving suite of enterprise solutions to clients. Specializing in Data, AI, and Security services on the Microsoft clouds, we can help you select, architect, implement, migrate to, and manage your Microsoft products. With Spyglass as your trusted ally, you can securely harness the power of Microsoft technology to drive strategic business decisions, optimize processes, predict customer behavior, spot market trends, and empower your business to stay ahead in today's competitive landscape.

Data & AI

As a Data and AI company, we specialize in providing comprehensive Data & AI Transformation services that are designed to revolutionize the way businesses operate and make decisions. Our team of experts is well-versed in leveraging artificial intelligence, machine learning, and advanced analytics technologies to unlock the true potential of your organization.

- **Data Integration & Delivery-** Spyglass is an expert in helping organizations blend big data, data warehousing, data modeling, and data integration capabilities. We help you define and implement your modern architecture to give your team the freedom to query data on their terms at limitless scale.

- **Data Governance-** Master Data Management (MDM) plays a pivotal role in establishing a unified approach to data governance, and when seamlessly integrated with cutting-edge solutions like Microsoft Purview and Copilot, it becomes a formidable asset for our customers. We enhance data culture, collaboration, and innovation, while reducing discovery time and operational risks, and establishing trusted governance and data quality across the enterprise.

- **Advanced Analytics-** Spyglass steps in to design and deliver precise business analytics solutions tailored to meet specialized business area needs and address specific inquiries. Our Business Analytics platform complements or follows our Modern Data Platform and Data Integration implementation, enhancing the delivery of solutions for even greater insights.

- **Artificial Intelligence-** At Spyglass, we stand at the forefront of AI innovation, dedicated to empowering your organization to harness AI effectively. Our AI Transformation Services are meticulously designed to ensure a smooth and successful journey into the realm of AI.

Security & M365

The nature of work has changed. With Microsoft Modern Workplace and Enterprise Mobility and Security (EMS) solutions, Spyglass can help you improve employee productivity and create more seamless communication and collaboration across locations and platforms while maintaining the security and integrity of systems and data.

- **Migrations-** Migrate to more modern and functional Microsoft platforms with ease. We can help you migrate your current and outdated platforms to many of Microsoft's all-encompassing platforms.

- **Mergers & Acquisitions-** We've partnered closely with Microsoft to bring their vast and expanding suite of enterprise solutions to clients to speed up the merger & acquisition process which can reduce disruptions to business.

- **Collaboration-** Empower your employees to work together. We'll help you empower employees with streamlined digital processes that foster creativity, collaboration, and brand value.

- **Identity & Access Management-** Identity and Access Management (IAM) secures corporate environments and applications. Spyglass specializes in deploying Microsoft Entra to enhance security and governance in complex settings.

- **Information Governance-** Spyglass creates specialized governance plans with Microsoft 365 technologies for optimal data protection and compliance.

- **Device Management-** Device Management is essential for growing organizations, and we partner with businesses to leverage Microsoft Intune and Microsoft Endpoint Manager effectively.

- **Threat Protection-** Spyglass offers expert services for the Microsoft 365 Defender suite, enhancing protection across email, endpoints, and identities, and enabling centralized threat hunting and investigations.
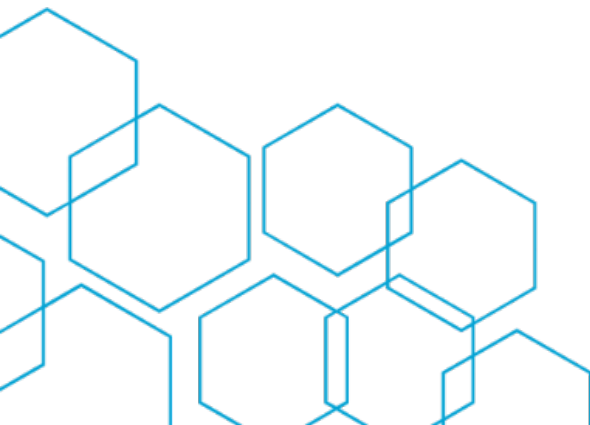

Cloud Solutions

To remain competitive in today's digital world, companies must gain agility and efficiency, drive innovation through new data-driven insights, and capture advantages through cloud-based advances. With Azure, we're ready to help you deliver new innovations for your customers through state-of-the-art cloud solutions whether it's lift and shift, hybrid cloud, multi-cloud, or any combination.

- **App Modernization-** Modernize your application portfolio in the Azure Cloud. We're ready to help you deliver new innovations for your customers through state-of-the-art cloud solutions, whether it's lift and shift, hybrid cloud, multi-cloud, or any combination.

- **Infrastructure DevOps-** Make the shift from managing infrastructure by hand to managing it through automation. Our focus is to automate your routine tasks to reduce manual effort and add functionality to help better manage the cloud workloads.

- **Azure Landing Zone Deployment-** Spyglass can expedite your Azure Landing Zone deployment, ensuring a solid and scalable foundation for your Azure environment while avoiding common pitfalls.

- **Cloud Security-** Simplify and fortify security with Microsoft 365 and Azure Cloud Security Solutions. It is crucial to make sure that your information, users, applications, data, and other cloud components are secured.

- **Low Code Solutions-** Build end-to-end business solutions with Microsoft's Power Platform. Microsoft's Power Platform is a low-code / no-code platform that empowers everyone to innovate.

- **ISVs for Azure-** Spyglass helps Independent Software Vendors succeed. Giving ISVs the tools to successfully launch offers in the Microsoft Azure Marketplace.

Managed Services

Oftentimes, companies need external IT support or services in areas like network, application, infrastructure, and security. This is the perfect reason to hire a Managed Service Provider to help fill the necessary gaps in your business. Spyglass MTG offers a variety of managed service options to meet each of our customers' unique needs based on their size and complexity.

- **Spyglass 365-** Spyglass 365 is a full Microsoft technology department at a fraction of the cost. Supplement your IT department with industry leading certified Microsoft experts for less than the cost of one FTE.

- **Microsoft Licensing/CSP-** Maximize the value of your Microsoft cloud licensing and see what a Cloud Solution Provider can do for you. We can help you align licensing to business needs and find areas to cut costs, which is key in getting the most value from these investments.

- **Spyglass Staffing-** Spyglass Staffing is dedicated to fulfilling all your technology staffing needs. While not all projects require the full consulting breadth that our broader team provides, Spyglass Staffing provides the specific resource(s) needed to round out your internal team and fulfill your requirements.

About Spyglass MTG

Spyglass MTG (Microsoft Technology Group) is a women owned/women led consulting firm focused on delivering Data, AI and Security solutions on the Microsoft clouds. For over 15 years, we've partnered with Microsoft to bring their vast and expanding suite of enterprise solutions to our clients.
