

AI Coaching Service Jumpstart: 3-Month Assessment

Your AI Coach in Implementing Microsoft's technology for AI Transformation

Unlock the Power of Microsoft's Prebuilt AI for Your Organization

In today's rapidly evolving digital landscape, harnessing the potential of artificial intelligence is key to gaining a competitive edge. However, integrating AI solutions into your business processes can be a complex endeavor. That's where Spyglass MTG, a leading provider of AI services, can help. With our expertise in implementing prebuilt AI Models, including the full suite of Azure AI Services which includes OpenAI, as well as Microsoft 365 Copilot, Security Copilot, Windows Copilot, GitHub Copilot, Copilot in Power BI, Copilot in Power Apps, Copilot in Microsoft Fabric and more, we help businesses like yours navigate the AI Transformation landscape with ease and confidence.

The Spyglass Advantage

At Spyglass, we understand that successful AI implementation requires a holistic approach. Our comprehensive three-month AI Coaching Service is an assessment to provide your company with a jumpstart on AI is designed to empower your organization to leverage Microsoft's prebuilt AI technologies effectively. Here's how our proven methodology can transform your business:

- **Workshops and Education: Building a Solid Foundation**
 - Our experts will demystify Microsoft's prebuilt AI including the latest generative OpenAI technology, providing insights into its capabilities and showcasing real-world examples
 - Discuss the ethical use of AI and its impact in the workplace
 - We prepare you for the transformative journey ahead by guiding you through the fundamental concepts and requirements enabling rapid deployment and adoption
- **Identifying Use Cases and Proof of Concepts (POCs)**
 - We'll collaborate with your team to identify potential use cases within your organization
 - We will work closely with you to assess feasibility, define success metrics, and prioritize the most impactful opportunities
 - Together, we'll select use cases that align with your business objectives and craft a roadmap for conducting POCs

Agenda:

Workshops and Education

- Latest Guidance around Microsoft's prebuilt AI & Copilots
- Prepare for journey/answer questions
- Demonstrations

Use Case/POC Identification

- Collaborate on Use Case options
- Assess feasibility, define success, and build roadmap for POCs

Implementation Plan & Governance

- Policies and procedures to ensure security, governance, and compliance
- AI Transformation Roadmap

- **Implementation Planning and Governance**

- Spyglass will collaborate with your organization to develop a comprehensive implementation plan for the chosen use cases
- We'll create customized strategies to address your specific needs
- Our experts will help you establish policies and procedures to ensure security, governance, and compliance throughout the AI implementation process
- We'll work with your team to develop an AI Transformation Roadmap
