Generative AI Proof of Concept (PoC)

Build a Proof of Concept with Generative AI on Azure OpenAI

The Challenge

Integrating advanced AI into existing apps is intricate and time intensive. Companies often lack the expertise and resources to build a PoC in-house due to the evolving nature of Generative AI. This process demands significant technical know-how in AI, DevOps, and Software Engineering, and as AI evolves swiftly with new practices surfacing regularly, necessitating constant learning and dedicated resources.

The Solution

Elevate your business with our tailored Proof of Concept (PoC) designed to create a Generative AI Application using Azure OpenAI.

Whether it's a standalone chat-based app or a seamless integration endpoint for your existing application, our PoC solution is customized to meet your specific needs.

Leveraging Azure OpenAI and AI Services, unlock the potential of generative AI while we navigate each phase of the process. We not only enable you to harness these capabilities but also enhance your workflow, ensuring a comprehensive and seamless experience throughout.

Key Features

- Guided Process
- Gen AI PoC
- Gain insights into your data
- Explore AI Capabilities
- Improved Workflow

Agenda

- *Week 1-2*
  - Understanding Business Requirements
  - Initial Planning and Design

- *Week 3-5*
  - Data preparation
  - Prompt Engineering
  - Development of chat-based app or endpoint for integration

- *Week 6*
  - Testing and Validation
  - Final Review and Delivery
