

Microsoft 365 Security & Compliance – Planning & Implementation

Securing Office 365 with products already licensed

The Problem

Microsoft 365 (M365) licensing offers customers an affordable way to gain access to many advanced security, compliance, and productivity focused capabilities under an easy to manage licensing vehicle. The challenge is effectively taking advantage of all the capabilities to secure, control, and achieve compliance. Solutions and capabilities that are not configured, deployed, and/or enabled lead companies to not being able to gain the true value in the M365 licensing that they purchased.

The Solution

Spyglass leverages a proven approach to help companies plan and implement the M365 security and compliance workloads to achieve an immediate ROI without overwhelming staff. Our methodology focuses on securing components across the entire suite of M365 products resulting in a secure environment that provides visibility and information on how people are interacting with data across enterprises. The engagement will also focus on controlling access and identity to achieve compliance and governance.

Key Benefits of our Approach

- Full M365 Security Assessment with recommendations for improvement
- A secured M365 environment
- Streamlined deployments of advanced security and compliance workloads
- Tailored to specific use cases and requirements
- Knowledge transfer throughout- focused on “train the trainer” for administrators
- Can achieve immediate Returns on Investment (ROI)
- Designed to be deployed in phases

Security Domains Covered

- Identity and Access Management
- Data Security and Protection
- Compliance and Visibility
- Endpoint Protection and Management

Deliverables

- M365 Security Assessment Findings and Recommendation Summary
- Detailed Design and Planning Report for the M365 implementation
- Large, consolidated Configuration Document for each solution detailing the specific settings for each

Spyglass MTG Can Help!

We can help you fast track your ROI with Microsoft E5 Licensing. [Contact us today!](#)

About Spyglass MTG- A Women Owned/Women Led Company

For over 15 years, we've closely partnered with Microsoft to bring their vast and expanding suite of enterprise solutions to our clients. We leverage proven methodologies, migration tools and expert consultants to architect, build, deploy, migrate to, and manage Microsoft solutions. Whether you are deploying or upgrading M365, implementing Azure, deploying Teams, building a SharePoint Site, developing a Security or Governance Model, designing a Modern Warehouse or BI Solution, or developing AI apps on the Power Platform, we can help!
