

Providing IT Support for SMB Companies

Microsoft Office 365 and Azure Support for Small and Midsize Businesses

The Problem

Are you a Microsoft shop? Do you lack IT support? This is a huge issue that we see within SMB companies today. When you lack a thorough IT support team, your business can be at risk from a security standpoint. 43% of security breaches take place at small businesses. Don't let that be you!

The Solution

Our Office 365 and Azure IT Support offering provides your business with full cost-effective support. This program covers **Office 365, Azure, and CSP**. Instead of hiring a whole team to oversee and run your Microsoft products, let us do it for you!

Why Microsoft?

Microsoft 365 offers you full control over who has access to your data. Microsoft provides security in the cloud—everything you need, wherever you need in, in one simple solution.

Spyglass MTG Can Help!

We can help provide SMB organizations with full IT support at a cost-effective price. [Contact us today!](#)

Program Highlights

CSP Support

- We can procure and manage your Microsoft licenses for you.
- Open licensing will be going away and the end of 2021- so you will *need* a CSP provider.
- Through CSP, we can provide discounts over open licenses.

Supplemental IT Management

- Easily manage your Microsoft platforms through us instead of hiring numerous full-time individuals.
- We can run administration for platforms such as Exchange, OneDrive, Teams, and more.

Security Features

We manage all aspects of your Microsoft security including:

- Patching
- Identity
- Access (MFA)
- Data (Intune)

Convenient Packages

- Bronze, silver and gold packages available starting at \$2,500 per month

About Spyglass MTG

Spyglass MTG uses proven integration methodologies and expert consultants to build and deploy Microsoft solutions leveraging SharePoint, Azure, Custom Application Development, and Office 365.
