

Connect and Collaborate Virtually with Just One App

Enable voice and video calling for Microsoft Teams

The Problem

In these current times, being able to easily connect and collaborate virtually is of the utmost importance. With the many collaboration platforms on the market, it can be overwhelming to choose just one. Oftentimes, organizations end up utilizing a few different apps to fulfill their needs of how they connect with their employees. This can be confusing and frustrating to have so many different channels of communication.

The Solution

Microsoft Teams is the all-in-one platform that you need! With Microsoft Teams Calling, you can now use this single app for calling, chatting, meeting, and collaborating- all in one place. Whether you already use Teams or are looking to migrate to the platform, Spyglass can help you quickly enable Teams Calling! We will get you set up on the platform in a timely manner so you can keep communicating virtually!

Microsoft Teams Calling Highlights:

- Call from Teams, Outlook, or a mobile device
- Make and receive phone calls
- Replaces your outdated business phone system with a cloud-based phone system
- Utilize screen sharing and video
- Contact center integration
- Audio Conferencing
- Cloud voicemail- access your messages from any device
- Auto attendant- easily route calls to the right employees
- Cloud compliance recording
