

Optimize Your Use of Microsoft Teams

Moving Beyond Chat and Files

Teams Adoption & Optimization

Microsoft Teams is much more than just chat and file management. Teams is a robust tool that brings people and content together, but simply deploying it does not ensure adoption. Whether you are just starting the rollout of Teams, or if you have had the platform in place for a while, there are steps you can take to ensure maximum benefits of this powerful collaboration tool.

Our Solution

Spyglass has helped many organizations optimize their deployment of Teams. With our 4-week Teams Optimization Program, we will provide your company with the foundation to leverage Teams to work more collaboratively and productively. Key topics and areas we cover include but are not limited to:

- Security
- User adoption
- Governance patterns
- Training and change management
- Business process management
- End user support

Spyglass MTG Can Help!

Contact us today to schedule a 15–30-minute discovery call with Spyglass MTG to understand your current situation, identify the areas we'll focus on, and determine next steps with your Microsoft Teams utilization.

Approach & Deliverables

- Analysis performed on current usage patterns, struggles, and pain points
- Platform awareness training
- Customized training and user adoption strategies that make sense for your environment
- Final 'Findings & Recommendations' document with additional how to's to continue adoption momentum

About Spyglass MTG

For over 15 years, we've closely partnered with Microsoft to bring their vast and expanding suite of enterprise solutions to our clients. We leverage proven methodologies, migration tools and expert consultants to architect, build, deploy, migrate to, and manage Microsoft solutions. Whether you are deploying or upgrading M365, implementing Azure, deploying Teams, building a SharePoint Site, developing a Security or Governance Model, designing a Modern Warehouse or BI Solution, or developing AI apps on the Power Platform, we can help!
