

# Teams Application Pack for Slack Users

Features that Slack users expect, working in Microsoft Teams

## Is your organization switching from Slack to Teams?

At first glance, Microsoft Teams and Slack seem very similar ... with conversations, tabs, and channels. But there are subtle differences, some of which can frustrate Slack users who switch to Teams. The Teams Application Pack for Slack Users smooths out the differences, allowing users to continue with the work flows and processes they were previously using in Slack.

## Tailored to your organization

Spyglass MTG has experience migrating Slack to Teams, and we developed these tools to keep Slack users happy and productive. But every organization is different! With a blend of business analysis and deep developer skills, Spyglass MTG can tailor Microsoft Teams to meet your company's cultural and compliance mandates. We can also build Teams solutions that facilitate specific workflows, such as an intake, incident management, or review and approval process.

Our Teams applications and custom solutions are built in accordance with Microsoft's best practices for extending Teams and Microsoft 365. We can even train your Team to build their own solutions!

## Driving innovation with Microsoft for over 15 years

We have been in Microsoft Gold partners for over 15 years and have engaged with hundreds of customers on a variety of Microsoft technologies. Our business was one of the first to join Microsoft in their journey to offer cloud services. We also bring expertise in other modern cloud services such as Slack and Salesforce, enabling us to build a wide range of innovative solutions for and with our clients.

We invite you to view our website for more information about the services we offer, our methodology to help you identify the right sized business solutions, and the quality of our implementations.

### Filling the gaps

- ✓ Ability to highlight/pin messages in Teams channels
- ✓ Allow members to invite other members to public Teams
- ✓ Allow @mentioning other public Teams from a Team
- ✓ Keyword notification alerts users when a keyword is used in a public Team conversation
- ✓ Find a Team – improved discovery of Teams and Channels
