Customer Portal: 16-Week Implementation

Enhancing Secure Customer Engagement with Power Pages

The Challenge

Businesses face an ongoing challenge in collaborating securely and effectively with customers in today's digital world. Gathering, sharing, and managing customer information is vital for decision-making and satisfaction. But outdated communication methods often create gaps and inefficiencies, hindering the use of customer insights. A centralized, secure platform for collaboration is needed to fully leverage these interactions and build better relationships.

The Solution

The Customer Portal:16-Week Implementation is a comprehensive offering designed to empower organizations with customer collaboration portals using Power Pages. Over a span of 16 weeks, our team of experts will work with you to design and implement a customer collaboration portal that not only enhances customer engagement but also provides a platform for effective communication and interaction.

Agenda

- *Week 1-2:* Project Kick-Off and Requirements Gathering
- *Week 3-5:* Design
- *Week 5-12:* Development
- *Week 11-13:* Testing
- *Week 14:* Deployment
- *Week 15-16:* Review, Handover, and Support Planning

Deliverables

- Customer collaboration portal

Our approach involves an in-depth review of your current customer engagement methods, identification of gaps, and areas for improvement. We then deploy Power Pages to create a customer collaboration portal. These portals will not only streamline communication but also provide an avenue for customers to provide feedback, view business reporting, make inquiries, and foster a sense of community.

Spyglass MTG Can Help!

We can help you enhance your customer engagement and communication strategies with Power Pages. Contact us today!

About Spyglass MTG- A Women Owned/Women Led Company

For over 15 years, we've partnered with Microsoft to expertly deliver their vast and ever-evolving suite of enterprise solutions to clients. Specializing in Data, AI, and Security services on the Microsoft clouds, we can help you select, architect, implement, migrate to, and manage your Microsoft products. With Spyglass as your trusted ally, you can securely harness the power of Microsoft technology to drive strategic business decisions, optimize processes, predict customer behavior, spot market trends, and empower your business to stay ahead in today's competitive landscape
