

Fabric & Power BI Factory

Your Own Fabric & Power BI Team on Demand at a Fraction of the Cost

The Problem

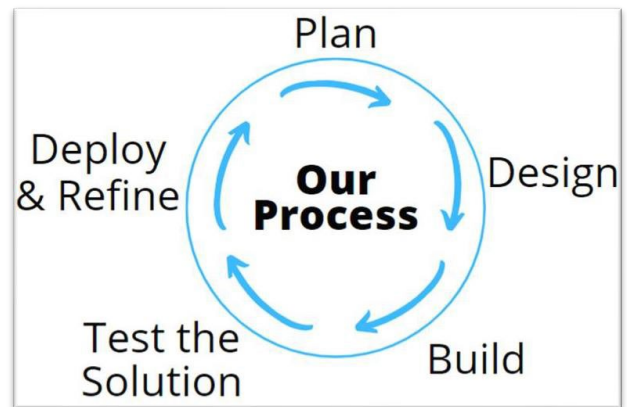

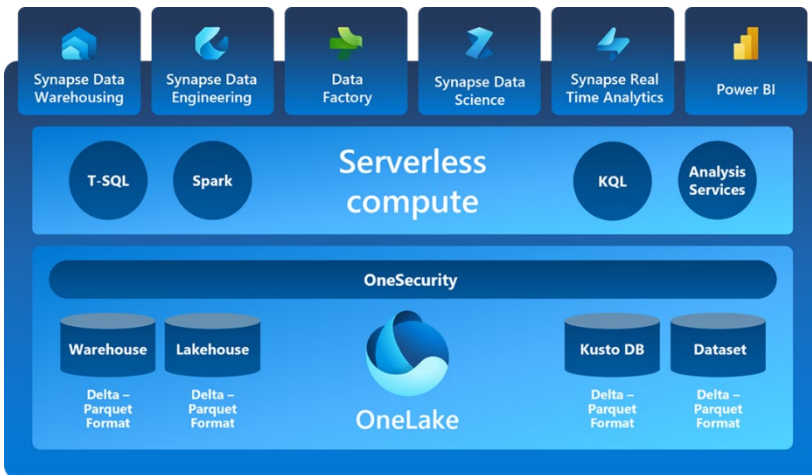

Microsoft Fabric & Power BI platforms are fantastic, but the development on this platform can quickly become complicated for the citizen developer and enterprises to manage.

The Solution

Spyglass' Fabric & Power BI Factory provides customers on-demand capacity to develop your lakehouse, machine learning or streaming solution in Fabric. The Fabric Factory is a full-service model from requirements, scoping, design, development, support as well as administration and management for the platform as desired.

Fabric Factory Benefits

- **Time to Market**- turn apps around quicker with on- demand access to skills across all Fabric & Power BI areas
- **Cost Savings**- hire us for a fraction of the price of a full-time team- packages start at just \$25k!
- **Flexibility**- prepay for work, use it when you need it, and add funds at any time
- **Repeatability**- Spyglass' proven methodology and toolkit provides repeatable process and accelerators to speed the development of your solution
- **Efficiency**- our proprietary inventory process prevents recreation of like solutions
