

Facility Inspection Application Jumpstart

Capture and share facility inspection data via a tablet device

The Problem

There are several inspection types that happen daily including a retail store walkthrough to verify proper store setup, a restaurant inspection in a kitchen, or bathroom and breakroom inspections. For example, when a restaurant employee arrives on-shift, they need to ensure that the food prep areas are sanitary and properly stocked and that all equipment is operating at safe temperatures, both hot and cold. These inspections need to be done quickly and efficiently.

The Solution

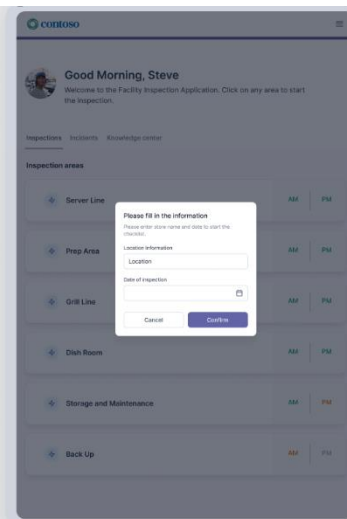

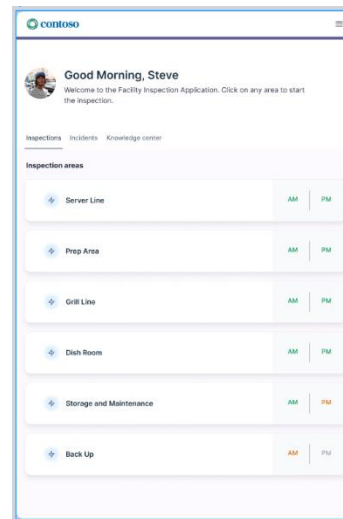

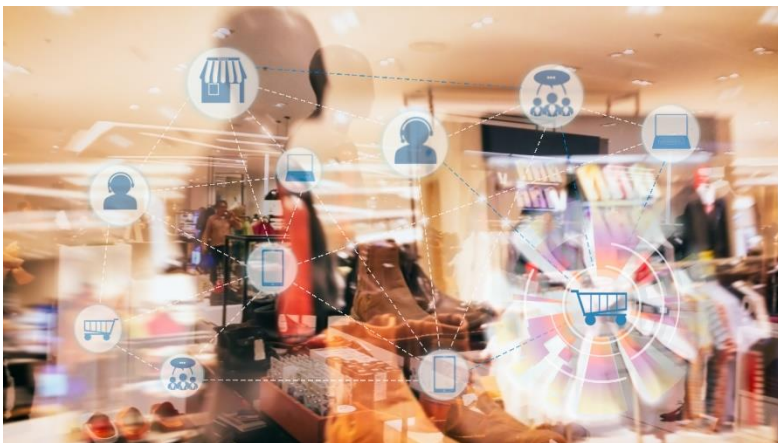

Spyglass's Facility Inspection Application Jumpstart is an offer that allows the use of Power Apps to capture data of the inspection via tablet. The employee is equipped with a Power Platform Solution that is accessible via Microsoft Teams on a tablet device. With this app, employees use Power Apps to capture inspection data, such as photos of the kitchen, via their tablet device. We leverage Power BI to show the report in a dashboard, as well as Viva Connection extensions for related updates and visibility between other employees.

Agenda

- Week 1
 - Requirements & Design
- Week 2 & 3
 - Development
- Week 4 & 5
 - Testing & Deployment

Deliverables

- Fully deployed mobile driven Power App solution
 - Leverages Power Automate, Power BI, Viva Connection, and Teams Adaptive cards

Spyglass MTG Can Help!

We can help your employees capture and share facility inspection data via a tablet device. [Contact us today!](#)

About Spyglass MTG- A Women Owned/Women Led Company

For over 15 years, we've closely partnered with Microsoft to bring their vast and expanding suite of enterprise solutions to our clients. We leverage proven methodologies, migration tools and expert consultants to architect, build, deploy, migrate to, and manage Microsoft solutions. Whether you are deploying or upgrading M365, implementing Azure, deploying Teams, building a SharePoint Site, developing a Security or Governance Model, designing a Modern Warehouse or BI Solution, or developing AI apps on the Power Platform, we can help!
